

IHC SYSTEMS THESIS/INTERNSHIP

IHC SYSTEMS

In an ever-changing political and economic landscape, Royal IHC enables its customers to execute complex projects from sea level to ocean floor in the most challenging of maritime environments. We are a reliable supplier of innovative and efficient equipment, vessels and services for the offshore and dredging markets. With over 40 years of experience, IHC Systems (Part of Royal IHC) is the market leader in the development, simulation and supply of control and automation systems for the offshore and dredging industry.

OPPORTUNITIES

Currently we are looking for students that are interested in performing a thesis or an internship at IHC Systems. Our field of expertise covers a wide range of offshore and dredging related control topics, including:

- Motion & Heave compensation
- Dynamic Positioning systems
- Autonomous vessels
- Dredge automation
- Augmented reality
- Power management

Together with us an assignment can be formed based on your interest and our experience, feel free to come up with your own ideas as well!

INTERESTED?

Do you have what it takes to face a technical challenge at a dynamic company? Then please contact us! If you are interested in this opportunity you can E-mail your résumé to:
